

PROFESSIONAL SUMMARY

Hi there! I am a Software Engineer with hands-on experience in building RESTful APIs using **Node.js and Express**, currently training in **Java, Spring Boot and Angular** at Infosys. Skilled in **MongoDB, MySQL, Git, and API development** with a focus on scalable and secure backend solutions.

SKILLS

- **Languages** – Java / J2EE (Java 8, 11, 21), JavaScript (ES2023), TypeScript (5.8)
- **Databases** – MongoDB, SQL, MySQL
- **Framework & Libraries** – ReactJS (18.2.0), Node.js (20.16.0), Flutter (3.0), Spring boot (3.5), Hibernate
- **Tools & Platforms** – Git, Firebase, Postman (v10), Log4J
- **Testing** – Junit (5.1), Mockito (5.5)

EXPERIENCE

Infosys Limited

Mysore, India

System Engineer Trainee

Feb 2024 – Present

- Currently undergoing training in full-stack development and enterprise-grade solutions.
- Receiving hands-on training in **Java, Spring Boot, JPA** and RESTful API development.

VAPTLabs Pvt Ltd

Bangalore, India

Developer

Jan 2024 – June 2024

- Led the development of different **Node.js** applications with a focus on scalability and performance optimization.
- Spearheaded the implementation of **LaTeX**-based PDF generation for automated document creation, resulting in a 20% boost in productivity. Utilized LaTeX effectively to generate intricate documents with precision and efficiency.

Teenvest Pvt Ltd

Bangalore, India

Internship

June 2023 – Oct 2023

- Designed a comprehensive exercise application leveraging **Flutter and Firebase** technologies.
- Demonstrated adept utilization of Flutter and Firebase technologies, leveraging Firebase's array of authentication methods to save over 30% of development time and ensuring heightened security measures in the development of premium-grade mobile applications.
- Collaborated with a 4-member team of developers and designers to implement and iterate on design concepts and features.

PROJECTS

Blogging Application with MERN Stack ([GitHub Link](#)):

- Built a blog application with features like user authentication, post creation/editing, and profile management.
- Used **Redux** for efficient state management, improving performance by 25%. ([Website Link](#))
- Tech Stack Used: MongoDB, ExpressJS, ReactJS, NodeJS

Travel Booking Android Application ([GitHub Link](#)) :

- Created an Android application for hotel and flight bookings with intuitive UI/UX.
- Hosted on **Firebase** with secure **authentication** and real-time data handling. ([Website](#))
- Tech Stack: Flutter

EDUCATION

Sir M Visvesvaraya Institute of Technology, Bangalore, India

- Bachelors in Mechanical Engineering (CGPA 8.1)

2018 - 2022
